

Welcome to Medicare!

Today you join more than 47 million Americans who have health care coverage from Medicare, the Federal health insurance program run by the Centers for Medicare & Medicaid Services (CMS).

Since you're entitled to Social Security retirement or disability benefits, **you're automatically enrolled in Medicare Part A (Hospital Insurance) and Medicare Part B (Medical Insurance)**. You don't need to pay a monthly premium for Part A. However, you do have to pay a monthly premium for Part B.

Medicare is stronger than ever. You now have access to benefits to help maintain and improve your health, like the "Welcome to Medicare" preventive visit and a yearly "Wellness" visit to discuss your health and health care needs. You can also choose from thousands of health care providers and hospitals across the country.

Here are some helpful tips to make sure you get the most of your Medicare:

1. **Read the enclosed booklet carefully.** It introduces you to Medicare and explains four very important decisions you need to make **now**. Review your choices carefully, before you make decisions.
2. **Use the official "Medicare & You" handbook to get answers to your questions.** "This handbook, which you will get in the mail soon, has details about your Medicare benefits and coverage choices.
3. **Fill out the Initial Enrollment Questionnaire.** You will get a letter soon that will ask you to complete an online questionnaire about any other health insurance you may have. Providing this information helps Medicare pay your bills correctly and on time.
4. **Start a file for your Medicare information.** Keep all of your Medicare information in one place so you can refer back to it when you need it.

We're committed to making sure you have health care you can depend on – care that's focused on you, and is safe, effective, and timely at a cost you can afford. If you have questions visit www.medicare.gov or call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048.
